

NEWS of the RACK VCV

key events • new modules • developer news • module videos • contests • and more

Hello, everyone in Rack-Land,

I think my muse is on vacation right now. Normally one idea - like the Very Cool Patch Challenge - is enough for me to develop my own ideas. But right now, nix - nada - niente. Fortunately, I get a lot of inspiration from the music you upload. It is absolutely overwhelming what creative potential is released here. And somehow one would have to appreciate that better, or point it out. Maybe I can think of a way to do that. If I already have a musical lull, then I just let my energy flow into other areas.

And now for the news.

Developer News and other News

MSM has revised its modules and is now at version **0.6.5**.

<https://phal-anx.github.io/>

sed. GeCo itself has not yet appeared. <http://www.hora-music.com/>

Many of the modules in VCV rack emulate a hardware module. **Richard Schweitzer** has compiled these and provided them as a **table**. It should always be updated and additions or corrections are welcome.

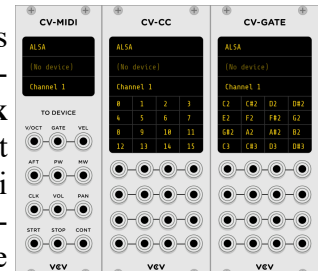

ID	MODULE	FUNCTION	EMULATOR	MODULE

The paid module **Floats** by **Friedrichs Audio** got a new face with version **0.6.5**. In addition, new options have been implemented, making Floats now not only look different, but also different from his role model Maths (Make Noise). The CPU consumption has also been significantly reduced. <https://gum.co/floats>

Andrew Belt has released another preview of **VCV-Rack Version 1.0**. Different modules will send midi signals to hardware modules and there will be polyphonic cables supporting up to 16 channels. <https://www.facebook.com/groups/vcvrack/permalink/301028230557328/>

Two news come from **Hora Music**. On the one hand the website was redesigned, on the other hand the **GeCo Examples** were re-

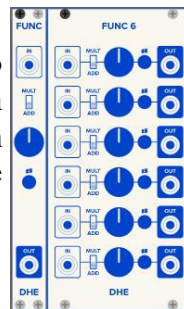

Vult has reworked his bass drum module **Knock** and is now at version **0.6.21**. With a switch, the module can now reach very extreme areas.
<https://modlfo.github.io/VultModules>

New Modules

DHE-Modules has released two new utility modules with version **0.6.4**. **Func** and **Func 6** are both Scaler / Offsetter, which can take on a variety of tasks.
<https://github.com/dhemery/DHE-Modules/>

As already announced, version **0.6.13** of **Impromptu Modular** includes the 4-track phrase sequencer **Foundry**, as well as the 4-CV display module **FourView**.
<https://github.com/MarcBoule/ImpromptuModular>

Nysthi brings us in version **0.6.38** already 5 new modules. **Dual** **Dual LPG** is a low-pass gate in the series on emulations of the Buchla 208. **Tunathor** is for calibrating and quantizing, **Fixed Voltage Source** provides 16 fixed voltages, **Multivoltmetro** is a precision voltmeter and **Graphic Meter** is used to visualize voltages.
<https://github.com/nysthi/nysthi/releases/tag/v0.6.38>

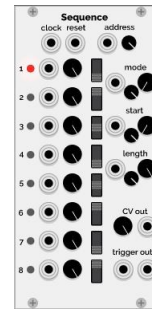

Amalgamated Harmonics released the arpeggiators **Arp 3.1** and **Arp 3.2** in version **0.6.5**. The first is for chords, the second for patterns.
<https://github.com/jhoar/AmalgamatedHarmonics>

AS has released version **0.6.13** of its modules. Now there is also a 2-channel mixer called **AS 2-CH Mixer** and a 4-channel mixer called

AS 4-CH Mixer modeled after the AS 8-CH mixer.
<https://github.com/AScustomWorks/AS>

Holonic Systems renamed its base module to **Holonic Source** in version **0.6.4** and released the module **Sequence**, an 8-track sequencer modeled after the Doepfer modules A-155 / A-154 / A-152.
<https://github.com/hdavid/VCVRack-Holon.ist>

Challenges

In **Edition 24** of the **Very Cool Patch Challenge** modules from **Audible Instruments** are to be used. A maximum of 2 other modules may be used, as well as any utility modules. More here
<https://community.vcvrack.com/t/very-cool-patch-challenge-edition-24/1272>. Entries can be submitted by **January 28th** and a **new challenge** will start on **January 29th**.

In **edition 23** the module to be used was **Disto** from **cf**. The contributions are summarized as always in a **playlist**.
https://www.youtube.com/playlist?list=PL3uoDdw5f0IxHJb-jQm_OORuAQ7Wsu_HLfl

Videos

ablaut:

Every Sunday a new live stream called **Cable Madness**. (13:00 UTC, 14:00 Central European, 21:00 Shanghai, 9:00 New York) You can find the last video under the following link.
