NEWS
of the RACK
VCV

Hello, everyone in Rack-Land,

last week there was actually no new module, but still there is a lot to report. Most of the news is about VCV-Rack V1, which shows that it really won't be long before we can enjoy the new features.

And now for the news.

Developer News and other News
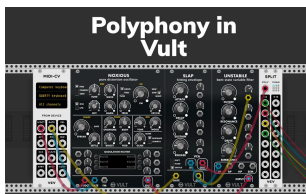

All **Vult** modules in rack **V1** are now **polyphonic**. The modules of the series Premium and Compacts, as well as the freely available modules Basal, Bleak, Slap, Spank and Stable have full polyphonic (16 voices) and the other free modules have 2 voices. In addition, the modules on the Vult website are now marked with tags, based on the new module browser in V1.

Frozen Wasteland has converted its modules to **V1**. Both the **design** was revised and **improvements** were made to the modules. Especially interesting for **polyrhythms** might be the revision of the two rhythm generators Quad Euclidian Rhythm and Quad Golomb Ruler Rhythm.
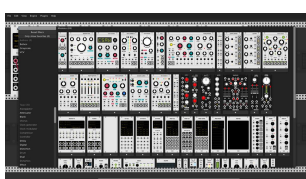

The **Audible Instruments** modules have now been converted to **V1**. This version now includes **Tidal Modulator 2** for free.

Impromptu Modular has also converted its modules to **V1** and already provides versions for all **operating systems**.

Lukas Scheigenpflug - also known as **Synthikat** - will hold a workshop on **„Generative Synthesis with VCV Rack"**; at the SAE Institute **Hannover** on **May 21st** at 3 pm.
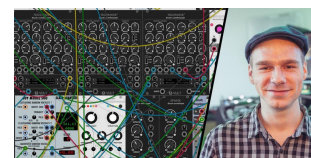

From **15 - 16 June** the **PULSE - Modular Music Fest** will take place in Opwijk (**Belgium**). Concerts, workshops and lectures await the visitors. **Innocent Coppieters**, known for its **Catro Modulo** modules, will also present VCV Rack under the title **„VCV Rack: your own modular from €0".**
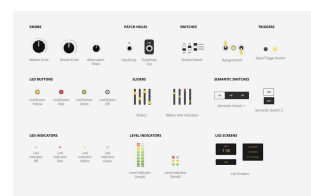

For all **module developers Ruil** has provided a **component library** on github. It contains 30 components ranging from rotary and slide controls to switches and LEDs.

New Modules

No new modules this week!

Challenges & Collaborations

Very Cool Patch Challenge

In **Edition 31** the module to be used is **Mid/Side Matrix** from **aP Modules**. Contributions can be submitted until **20. 5** and a new challenge starts the next day. Contributions are summarized as always in a playlist.

Weekly Challenge #4

In the weekly challenge of the **VCV blog** on **reddit** you have to create a patch with a maximum of **15 freely available modules**, one of which must be the **NoteSeq** sequencer of **JW modules**. More information at https://www.reddit.com/r/vcvrack/comments/bk6ogh/weekly_challenge_4/

Collaboration chain patch game Nr. 1

One World - One Voice did it, VCV-Rack now also has a **musical chain letter**. It all started with **rsmus7**, who also had the idea for this action. He has created a patch and invited to **develop it further**. Branches are definitely desirable, so that completely new things can develop from it. More information about CCPG # 1 is available at

https://community.vcvrack.com/t/new-collaboration-chain-patch-game-nr-1-is-on/2597

CALL FOR SUBMISSIONS:
Drone Day 2019

After the Winter Sostice Drone **Ben de Groot** alias ablaut now calls for participation in **Drone Day 2019**. This is on **May 25th** and like last year he would like to release a drone mix on Bandcamp for free download. The deadline for contributions is **19 May**. A click on the picture leads to the original article and **further information**.
