

# NEWS of the RACK VCV

key events • new modules • developer news • module videos • contests • and more

Hello, everyone in Rack-Land,

not all (commercial) VCV rack modules are available via the Plugin Manager. BB Modules, Evil Turtle Productions, Hora Music, Klirrfactory and Friedrichs Audio come to mind spontaneously. So far this didn't seem to be a problem, but with version 1, a new license system will be introduced and it looks like Friedrichs Audio won't take the step to Rack V1. I very much hope that all module developers will stay with us in Rack V1, but if not, I will be sad but I will survive it.

And now for the news.

## Developer News and other News

The **Superbooth 2019** is over. Unfortunately I could not be there for health reasons, but according to the photos, the Racklanders meeting there had a lot of fun together. I'm hoping for next year now.

**Holonic Systems** has reworked its modules and is now at version **0.6.6**.

## New Modules

After the already mentioned free modules, **ZZC** has now released the Phase Sequencer **Phaseque**. This can be purchased for \$ 30 via the Plugin Manager.

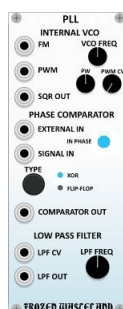

After a long time there is a new module from The **KlirrFactory**, which is part of the commercial packages Gold, Platinum, Titanium and Hall of Fame. If you own one of these packages, you will receive the Clock Mover **Wonky** for free. The distribution takes place exclusively via the website of the developer.

**Bogaudio** released with version **0.6.16** the two Random Walk generators **Walk** and **Walk2**.

## Challenges & Collaborations

### Very Cool Patch Challenge

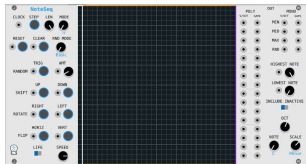

In Edition 30 of the Very Cool Patch Challenge, the module to be used was the **Frozen Wasteland PLL Phased Locked Loop**. The playlist is available under the following link <https://youtu.be/ryvBy8uRVyQ>

In **Edition 31**, the module to use is **Mid/Side Matrix** by **aP Modules**. Posts can be submitted until 20.5 and a new challenge starts the next day.

## Weekly Challenge #4

In the weekly challenge of the **VCV blog** on **reddit** you have to create a patch with a maximum of **15 freely available modules**, one of which must be the **NoteSeq** sequencer of **JW modules**. More information at [https://www.reddit.com/r/vcvrack/comments/bk6ogh/weekly\\_challenge\\_4/](https://www.reddit.com/r/vcvrack/comments/bk6ogh/weekly_challenge_4/)

## Collaboration chain patch game Nr. 1

One World - One Voice did it, VCV-Rack now also has a **musical chain letter**. It all started with **rsmus7**, who also had the idea for this action. He has created a patch and invited to **develop it further**. Branches are definitely desirable, so that completely new things can develop from it. More information about CCPG # 1 is available at <https://community.vcvrack.com/t/new-collaboration-chain-patch-game-nr-1-is-on/2597>

## CALL FOR SUBMISSIONS: Drone Day 2019

After the Winter Sostice Drone **Ben de Groot** alias **ablaut** now calls for participation in **Drone Day 2019**. This is on **May 25th** and like last year he would like to release a drone mix on Bandcamp for free download. The deadline for contributions is **19 May**. A click on the picture leads to the original

article and **further information**.

If I missed someone, I'm sorry.  
Please give me a hint.

Current module versions by developer (not all are in Plugin Manager and some have to be compiled by yourself). Revised entries are **red**.
